

To find out more, please contact
your local Seed Specialist.

Maize varieties don't always travel well - that's why we've developed the most suitable varieties specifically for UK farmers from Scotland to the South Coast at our breeding and test sites across the country. So it comes as no surprise that over one third of the maize grown in the UK is developed and bred by Limagrain UK - experience *our* knowledge.

AWARD

Massive yields for UK growers!

- AWARD is suitable for growers on mainstream sites (Maturity Class 5).
- The massive dry matter yields from AWARD enables growers to maximise output per acre and reduce growing costs per tonne.
- AWARD has superb energy and starch yields – higher than most other varieties on Favourable list.
