

To find out more, please contact your local Seed Specialist.

Maize varieties don't always travel well - that's why we've developed the most suitable varieties specifically for UK farmers from Scotland to the South Coast at our breeding and test sites across the country. So it comes as no surprise that over one third of the maize grown in the UK is developed and bred by Limagrain UK - experience *our* knowledge.

NESCIO

The gold standard!

- NESCIO produces large cobs with high starch content resulting in an excellent starch yield.
- NESCIO has superb energy yields, higher than many other varieties on Favourable list.
- Maturity Class 5 – suitable for mainstream sites.
- NESCIO is a well established Limagrain bred variety that is well known for its early cob maturity and excellent digestibility.
