

# LG Motown

**Solid disease resistance with earlier maturity**

**Nabim Group:** Group 4

**Market Options:** UK Distilling & Feed

**OWBM Resistance:** Yes

**Rotational Position:** First Cereal

**Sowing Date:** Normal & Late

**Soil Type:** Light Soils

LG Motown is a high yielding variety with official testing suggesting that it also meets the requirements of the distilling market. The variety has a very good disease resistance profile, combined with good agronomic features; such as OWBM resistance and earlier maturity.

## Strengths

- A very good disease resistance profile
- Early maturity
- Good yield potential
- Good resistance to yellow and brown rust, and Septoria tritici
- Resistance to OWBM
- Market opportunities for distilling and feed
