

Sienna

Best specific weight on the AHDB Recommended List

Market Options: Malt Distilling & Feed

IBD Approval: Full IBD Approval

Sienna offers the best specific weight available, combined with low screenings and high hot water extract – traits desired by the malting industry.

Sienna is medium in height, offering good resistance to lodging and brackling. It has a good disease resistance profile, backed up by its high untreated grain yield in trials.

Sienna exhibits many of the positive traits associated with the feed variety Westminster, offering livestock farmers a higher yielding alternative. Sienna has competitive yields in all regions.

Strengths

- Carries Malting Barley Committee (MBC) Approval for malt distilling
- Best specific weight on the AHDB Recommended List
- High tillering with relatively long straw
