

Hobson

A reliable variety that has consistently performed in the UK

End Use: Dairy, Beef & Sheep

Utilisation: Graze in situ

Sowing period: Spring, Early Summer & After cereals

Utilisation Period: Autumn & Winter

Double graze rape: No

Hobson is the variety for finishing lambs. It has excellent resistance to powdery mildew; a disease which can make some crops unpalatable leading to a high wastage factor.

Hobson is very palatable and digestible. Bred by Limagrain and fully proven on livestock farms throughout the UK.

Strengths

- Ideal for finishing lambs
- Powdery mildew resistant
- Reliable forage
- UK proven

Quality Seed – direct from breeder to farmer
