

Lomond

A fantastic variety combining high yields and disease resistance

End Use: Dairy, Beef & Sheep

Utilisation: Lift and Store & Graze in situ

Sowing period: Spring

Utilisation Period: Winter

High fresh and dry yields make this variety ideal for finishing lambs post Christmas.

Lomond has both powdery mildew and clubroot resistance and trials show it suffers less from rots and splits in its root.

Bred by [James Hutton Institute](#).

Strengths

- High dry matter yields
- Club root resistant
- Powdery mildew resistant
- Winter hardy
- Flexible utilisation period

Quality Seed – direct from breeder to farmer
