

Prospect

Maize at its best

Maturity: Early

Site Type: Favourable & Less Favourable

High yields with improved cell wall digestibility and high starch content to maximise feed performance – all from an early harvest.

You can expect the best from Prospect!

Strengths

- Excellent early vigour and good standing power.
- Early maturing and is suitable for all maize growing sites.
- Excellent eyespot tolerance and fusarium resistance.
- Will be one of the top ME yielding varieties available.
- Combines highly digestible fibre with a high starch content to produce superb quality silage.
- NEW! Set to become a class leading First Choice variety on the 2020 BSPB/NIAB list.
