

Blue Circle

A multi-purpose, long term mixture

Use: Cut & Graze

Blue Circle is a multi-purpose, long term mixture designed for the farmer who wants exceptional all-round performance from his grass.

Blue Circle achieves this by having a selected range of ryegrasses of different heading dates and growth habits. The combination of heading dates along with Timothy gives a flatter seasonal production curve.

Three high yielding clovers ensure maximum output whether grazing or conservation, as well as maximum production of Nitrogen through root nodule rhizobium.

Silage with a high dry matter is readily achieved with Blue Circle.

Blue Circle is available without seed treatments and with organically produced constituents. Also available with Festololium to increase early spring growth.

Strengths

- Excellent big bale silage and hay
- Top class early season grazing
- Very early silage and excellent ME
- Responds well to variable inputs
- Winter hardy and drought tolerant
- Quick recovery from cutting

Quality Seed – direct from breeder to farmer

Technical Information

Blue Circle is ideal for long term grazing of sheep and suckler cows, growing and fattening livestock. By using a carefully selected blend of ryegrasses, clover and Timothy, grass with high digestibility, sugar, mineral and protein content is produced.

White Clover	290 seeds/m ²
Early Perennial Ryegrass	290 seeds/m ²
Intermediate Perennial Ryegrass	650 seeds/m ²
Intermediate Perennial Ryegrass (tet)	125 seeds/m ²
Late Perennial Ryegrass	430 seeds/m ²
Hybrid Ryegrass	70 seeds/m ²
Timothy	570 seeds/m ²
